

# Bug Barrier® BI PARTING

## Door Operation

### MOUNTING OPTIONS ~

Header Mount. Face of Wall Mount.

### SCREEN ~

Standard green color - other colors available.  
17" x 11" high strength, vinyl coated polyester  
weave screen material. Pipe staffs are reinforced  
in yellow safety vinyl.

### BI PARTING BUG BARRIER® DOOR OPERATION ~

Manually operated. Bi Parting door is fixed to  
both jambs and locks in the center. Nylon cord  
tieback straps on the fixed sides which keep the  
screen secure in the open position.

### TRACK ~

Heavy gauge galvanized steel mounting hardware.  
Heavy duty ball bearing trolleys provide easy glide opening.

### HEAD ROOM ~

Three and a half inches required for head room.

### SIDE ROOM ~

When bunched, the door material will take up to a 1" per foot wide.  
Nylon cord tieback straps are provided on each side to keep the  
screen secure in the open position.

### WIND STABILIZATION ~

Full height, heavy galvanized pipe staffs are placed evenly  
throughout the door along with 5/8" cane bolt floor locking pins for  
superior wind stabilization.

**Available in sizes up to 20' high and in any width by joining  
multiple units together.**

*One year warranty on parts and workmanship.*
